(2) The OMV MyStation Program is organized by OMV Bulgaria OOD (the "**Organizer**" or "**OMV**"), with seat and registered address at 2 Donka Ushlinova St., Vitosha district, gh. - increasing customer satisfaction of the participants,

rewarding their loyalty with benefits associated with the Program, such as OMV MyStation Points, special and/or personalized commercial offers, etc.

(4) The Regulation establish the separate stages of registration and use of the OMV MyStation App, as well as the rules of the OMV MyStation loyalty program - from the voluntary and free enrolment of the customer in the Program, to the possible exercise of his/her right to terminate his/her participation, as well as stipulating the responsibility of the Organizer and the client-participant in the Program.

(5) Participants are obliged to read the Regulation and accept it upon registering in the Program, as this is a prerequisite both for using the digital OMV MyStation Card and for receiving and using the advantages offered within the Program. Participants are required to comply with the provisions of the Regulation throughout their voluntary participation in the OMV MyStation Program.

(2) At Participant's choice, a physical plastic card can also be used, if it issued by the Organizer under other of its loyalty programs (such as Save&Drive, including one already registered old one under the terminated Save&Drive application within the existing loyalty program of OMV "Save&Drive"). Plastic cards and digital cards from the Organizer's partner loyalty programs, which are not issued by the Organizer, cannot be registered in the OMV MyStation App and in the Program under applicable terms and conditions of the partner program. For the purposes of the Program, the physical plastic card registered in the Participant's profile in the OMV MyStation App (such as Save&Drive or other issued by OMV) is equivalent to the digital OMV MyStation Card, and the use of each of them gives identical advantages, if they are registered in the same Participant profile. The registered plastic card and the digital OMV MyStation Card provide the same opportunities. If a plastic card was entered upon registering the user profile in the OMV MyStation App, the plastic card can be used even before confirming the activation link in the verification email, however, only OMV MyStation Points can be accumulated and until the activation link in the verification email is confirmed, the benefits of the Program cannot be used. The plastic card can be added to the user profile either during the registration process or at a later stage - through the customer service service by calling 0800 12 800. The barcode of the plastic card is not displayed in the profile. The plastic card number can be checked in the initial email after registration and account verification or by calling customer service on 0800 12 800. If the plastic card number in the email does not match the one on the plastic card, the Participant should notify the Organizer about this by using the customer service by calling 0800 12 800. Until the number of the plastic card is corrected in the manner specified in the preceding sentence, the plastic card could not be used in conjunction with the Participant's profile in the OMV MyStation App. The number of the Save&Drive plastic card is usually different from the number of the digital OMV MyStation Card. Digital OMV MyStation Cards cannot be issued in card-plastic format.

(3) A broken, stolen or lost plastic card can neither be reissued with the same barcode, nor replaced with a new one. In the event that the plastic card is lost or stolen, the Participant must notify the Organizer immediately. The plastic card declared lost or stolen is blocked within 2 (two) days, starting from the date on which the message was received by the Organizer.

Employees of OMV Retail Outlets have the right to retain such a card that has been declared lost or stolen and that has been presented to them by a third party.

(4) One Participant can have only one digital OMV MyStation Card and one plastic card issued by OMV and registered in the same profile in the OMV MyStation App. In the event that the Organizer starts issuing OMV MyStation plastic cards, the regulations regarding the plastic card will be applied accordingly to the physical OMV MyStation plastic cards.

(5) In order to take advantage of the advantages of the Program and to accumulate OMV MyStation Points, when making a purchase the Participant must present his/her digital OMV MyStation Loyalty Card in the App, regardless of whether it was requested by an employee (and in any case before printing of the fiscal receipt) so that the employee can scan the digital OMV My Station card.

(6) The OMV MyStation Card is not a payment or bank card or means of payment.

(7) The Organizer has the right to decline and/or block at any time the digital OMV MyStation Card, which is suspected to have been used for fraud, misuse or for transactions in violation of the Regulation or Terms of Use of the OMV MyStation App. The Organizer undertakes to give appropriate instructions and/or take the necessary actions in such cases.

If the change is in detriment of the Participants, the Program Participants are informed at least 14 days in advance through the communication channels specified in Art. 1, para. (6). In the event of such a change with respect to OMV MyStation Points, such change shall

only apply going forward, after the effective date of the change, and shall not apply to OMV MyStation Points and benefits already accumulated.

- tobacco and tobacco products, such as cigarettes and cigars, electronic hookhas;
- electricity charging services;
- Bulgarian vignettes (fees for using the Bulgarian national road network) and

- promotional products that can be purchased with a discount and/or discount through stickers and coupons within the Program;
- motor oils of a brand different from OMV;
- all services and non-food products that, at the time of the transaction, are NOT explicitly listed in the previous para. (6) above or for which it is not explicitly stated and announced in the OMV MyStation App and/or on www.omv.bg that they carry OMV MyStation Points.

(9) OMV MyStation Points can only be used at OMV Retail Outlets via the the OMV MyStation App

and/or within the App itself when purchasing selected products and/or services and/or discounts for them, as indicated and announced in the OMV MyStation App

(10) Accumulated OMV MyStation Points can be used to purchase goods and/or services provided at OMV Retail Outlets, according to the list of selected products and/or services, and payment can be made entirely with points and/or for receiving discounts. The complete list of products and services for the purchase of which bonus points can be used is available in the OMV MyStation App.

(11) OMV MyStation Points are accumulated and spent transparently in the Participant's Profile, and the Participant can see the information both on each receipt for purchases made using the digital OMV MyStation card and in the OMV MyStation App.

(12) At any moment, the following information can be obtained from the OMV MyStation App:

- the number of accumulated OMV MyStation Points;
- the number of points used or received OMV MyStation Points for each individual transaction (number received (with a + sign)/points used (with a - sign), date and location of the transaction (without information about the value of the specific transaction and the goods and services purchased));
- the number of available OMV MyStation Points that can be used (accepted) in the future.

(13) The following information is indicated in the fiscal receipt:

- the value of the products and services purchased by the Participant;
- the value of price discounts;
- received/used OMV MyStation Points for the transaction;
- current balance of OMV MyStation Points in the profile after the transaction (available OMV MyStation Points).

(14) OMV MyStation Points are received by the Participant only after presenting the digital OMV MyStation Card, making a payment and issuing a fiscal receipt. In view of this, OMV MyStation Points obtained as a result of a transaction can only be used at a later point in time - for other purchases, and never for the purchase within in which they were obtained and accumulated.

(15) For payments made entirely using OMV MyStation Points, the points used do not carry any additional points for the transaction. When paying partly with OMV MyStation Points and partly with cash and/or bank card, OMV MyStation Points are only awarded for the part paid in cash and/or bank card.

(16) Within the Program, partial (after the decimal point) points are not accepted and calculated, neither when accumulated, nor when used. For example, if a transaction of BGN 2 (1,02€) awards 1 point, a transaction of BGN 9 (4,60€) from one product category (described in Art. 8 (6)) carries 4 points.

(17) The Participant must have the full necessary set of points in accordance with the announced conditions of the offer or the proposal, in order to receive the respective discount. If, prior to the transaction, the Participant does not have sufficient available OMV MyStation Points to receive a particular discount for the entire quantity of goods/services purchased within a given transaction, no discount shall be charged (for example, if the Participant has 20 OMV MyStation points available in his account before his/her transaction and wants to take advantage of a discount for each litre of fuel purchased for 1 OMV MyStation point per litre, then if he/she filled more than 20 litre of fuel, the discount will not be charged and received by the Participant, and no points will be taken from their account for this transaction).

(18) During a transaction, points are accumulated by separate product categories (as provided under Art. 8 (6)) above), and are rounded down to the second digit (regardless of whether they are accumulated on based on litre purchased or amount spent) after the decimal point.

Example # 1: For example, when buying OMV fuels and products from Viva restaurants at the same time, the points are calculated and rounded down separately in respect of purchased OMV fuels and in terms of products from Viva restaurants. If, for example, 1 point

is awarded for a litre of OMV high-grade fuel and 1 point for every 2 BGN (1,02€) paid for products from a Viva restaurant, when 30.97 liters of OMV fuel and BGN 9.50 (4,86€) products are purchased at an OMV Retail Outlet Viva restaurant by a Participant in the Program, this would accumulate 34 points - 30 points for the category of purchased OMV OMV fuel and 4 points for the category of products from the Viva restaurant.

5.2. If consent is given, the User's current location may be processed with the "Nearest Gas Station" feature.

5.3.
